Dear OSE board,

I would like to nominate Amy Parker to join the Board of Directors.

She has been a very valuable supporter of the Open Source Endowment as an advisor, bringing unique experience and skills that will become even more relevant in the scaling stage of OSE — particularly in fundraising, board development, and best-in-class nonprofit governance.

This week, she made several more donations and crossed the threshold required for OSE membership, which made her eligible for election as a Board Director. The Signal Foundation, where she currently works, is fine with this additional role for Amy. Please approve this appointment.

Chad to Me, Maxim & Jonathan

28 MAY

Approved, eagerly!

Yours,

Maxim to Chad, Me, Maxim & Jonathan

28 MAY

Approved here too.
